It is said that the police chief was killed in the blast along with 12 of his body guards and high ranking police officials also killed and wounded. Kandahar prison broken once again; the mystifying battle between faith and technology!!

The victorious and history producing soldiers of Allah under the leadership of Islamic Emirate have once again broken Kandahar prison, freeing more than 500 imprisoned Mujahideen which include tens of commanders, group leaders and high ranking officials and once again showed the triumph of the forces of mercy and faith over the technology plagued forces of Satan.

Mujahideen had started working on a 360 meter-long underground tunnel with great professionalism, dedication and secrecy, during which they bypassed highly secure check posts and Kandahar-Herat main highway before directly reaching their target, the prison's political wing in a 5 month period, according to the latest information provided by the Mujahideen in Kandahar. As planned earlier, the freeing of prisoners through the tunnel began at 11:00 pm last night when 3 previously informed inmates walked into each cell, woke up the Mujahideen and guided them to the tunnel, the process of which finished at around 03:30 am this morning when all the prisoners came out of the tunnel where they were escorted to secure destinations by vehicles.

Kandahar prison was previously broken into by Martyrdom seeking Mujahideen in the month of June 2008, breaking down its security barriers and killing dozens of security guards using an explosive-laden vehicle and heavy arms before freeing all its inmates. After this incident, the security personnel in Kabul's stooge regime, in a failed attempt upgraded its security parameters by surrounding the prison with belts of security check posts, cameras and mobile patrol groups. The American's and their hirelings never thought that the brave and daring Mujahideen would ever be able to free their comrades again, especially without any of the security personnel ever noticing or causing harm to any of the 500 prisoners who escaped through the tunnel. This is a sign of the help from the Almighty Allah, which no mind or technology can comprehend and this is considered as nothing more than the strike of the superiority of faith over material means.

This recent operation comes at a time when the echoes from the blow on the Ministry of Defense in Kabul are still ringing in the ears of the puppets in Kabul and their foreign masters while the theatrical drama of the blame game goes on between the two sides. The senate of Kabul regime wants the removal of the minister of defense (Raheem Wardag) from his office in connection with the incident while the high council and others go even further by proposing the changing and scrambling of all officials in security posts. But these people do not realize that they shall be witnesses to even more such Jihadic operations, which shall be even more dazzling and impressive than the previous, the blame of which shall not only force the defense minister to resign but also the "esteemed" head in Kabul! And the American commander supported by state of the art weapons, technology and overflowing dollars, who deceitfully boasts about securing Kandahar, should also ready himself for resignation and admit to his failures and defeat against the Mujahideen of Islamic Emirate.

O Allah, make them and their weaponry a booty for the Mujahideen

you are our support and you are our only Victor; by your order we attack;

by your order we retreat and by your order we fight

O Allah, the sky is yours; the earth is yours; the sea is yours,

so whatever forces they have in the sky, drop them.

Destroy all their forces in earth and sink all their forces in sea

O Allah, deal with them for verily they can never disable you

O Allah, retaliate upon them, afflict them like you did to Pharaoh and his nation

O Allah defeat them, destroy them O the All-Strong, the All-Mighty

Allahu Akbar
